Surveyor's Declaration

This is to certify that:

- The barge has been surveyed in accordance with the requirements of Maritime Rule Part 46.23.
- The survey (and included photographs) show that the following areas were inspected and that the barge complied with all the relevant requirements of the maritime rules. Unchecked items indicate that inspection is not applicable.

- Bottom hull
 All void spaces/internals
 Lifting appliances (including cranes)
 Structure
 Auxiliary machinery
 Stability (if crane on board)
 Anchors and cables
 Navigation lights & shapes
 Boilers and other pressure vessels

- A Does the barge carry any persons on board during the course of a voyage? Yes / No
 If yes, explain the operations conducted by the person(s) and their location.
- B Is the barge propelled by crane or by other equipment? Yes / No
 If yes, explain the method of propulsion.

C Does the barge require a load line certificate? Yes / No

D Does the barge carry any dangerous goods? Yes / No
If yes, attach the dangerous goods permit

3 The application for the issuance of a New Zealand Barge Safety Certificate is made direct to Maritime New Zealand by, or on behalf of, the registered owner.

4 A copy of this completed application form has been supplied to the owner of the subject ship in accordance with the principles of Maritime Rules Part 47.74(8).

Name of Surveyor

Signature

Date
