Part Objective

This Part sets out the requirements for carrying charts and nautical publications on ships. It applies these requirements, with certain specified exceptions, to commercial vessels of 12 metres or more in length overall that operate within enclosed water limits and all commercial vessels operating outside enclosed water limits. Part 25 ensures that New Zealand continues to meet its obligations under Chapter V, Regulation 20 (Nautical Publications), and Regulation 21 (International Code of Signals), of the International Convention for the Safety of Life at Sea, 1974, (SOLAS). Part 25 replaces the Shipping (Nautical Publications) Regulations 1988. Authority for making Part 25 is found in section 36(1)(b) and (t) of the Maritime Transport Act 1994.

Extent of Consultation

On 20 May 2000, the Maritime Safety Authority published in each of the daily newspapers in the four main centres of New Zealand a notice inviting comments on the proposed Part 25. A notice was also published in the *New Zealand Gazette* on 18 May 2000. Copies of the draft Part 25 and the invitation to comment were then sent to interested parties. Comments on the Part were requested to be made by 20 July 2000.

Twelve submissions were received on Part 25. All submissions were considered and, where appropriate, the proposed rules were amended to take account of the comments made.

Commencement

Part 25 as amended was referred to and signed by the Minister of Transport.

Part 25 will come into force on 1 February 2001.

Section 1 – General

 - (c) warships; or
 - (d) pleasure craft.

Section 2 – Area Requirements

25.4 Unlimited Area

The owner and the master of any vessel that operates in the unlimited area must ensure that the vessel carries –

- (a) nautical charts; and
- (b) the following nautical publications:
 - (i) tide tables;
 - (ii) lists of lights;
 - (iii) sailing directions;
 - (iv) notices to mariners;
 - (v) an astronomical almanac;
 - (vi) the International Code of Signals; and
- (a) mathematical tables for the calculation of astronomical observations, that comply with rules 25.7 and 25.8, as applicable.

25.5 Offshore and Coastal Areas

The owner and the master of any vessel that operates in the offshore or coastal areas must ensure that the vessel carries –

- (a) nautical charts; and
 - (b) the following nautical publications:
 - (i) tide tables;
 - (ii) lists of lights;
 - (iii) if the vessel is a non-fishing vessel, sailing directions,
- that comply with rules 25.7 and 25.8, as applicable.

25.6 Inshore and Enclosed Areas

(1) Except as provided in rule 25.6(2), the owner and the master of any vessel that operates in the inshore or enclosed areas must ensure that the vessel carries –

- (a) nautical charts that comply with rule 25.7; and
- (b) a nautical publication containing tide tables that complies with rule 25.8.

- (2) If a nautical chart or tide tables are not published for the waters in which a vessel is operating, the owner and the master of the vessel must –
 - (a) ensure that the vessel carries the best alternative information available; and
 - (b) in the case of a nautical chart, advise the Director that no nautical chart is available for that operation.

Section 3 – Chart and Publication Requirements

25.7 Nautical Charts

- (1) A nautical chart carried to meet the requirements of this Part must –
 - (a) be appropriate to the vessel's area of operations; and
 - (b) be of the largest scale available and suitable for the type of navigation it is being used for; and
 - (c) if it is an electronic chart –
 - (i) be part of an Electronic Chart Display and Information System that meets the requirements of *Performance Standards for Electronic Chart Display and Information Systems (ECDIS)* adopted by the International Maritime Organisation by Assembly Resolution A.817(19); and
 - (ii) have paper back-up nautical charts; and
 - (iii) be operated only by persons who have received training, that is acceptable to the Director, in the use of electronic charts.
- (2) A nautical chart carried to meet the requirements of this Part must be –
 - (a) certified by the relevant government institution as corrected up to the time of supply to a chart retailer; and
 - (b) if purchased in New Zealand, certified by a chart retailer approved by Land Information New Zealand to undertake chart corrections, as corrected up to the time of supply; and
 - (c) maintained in a fully corrected condition.
- (3) Land Information New Zealand must ensure that corrections to any nautical chart supplied by Land Information New Zealand to meet the requirements of this Part are made available at a frequency approved by the Director.
- (4) The Director may approve the frequency of publication of corrections to nautical charts if the Director –
 - (a) consults with Land Information New Zealand; and

- (b) is satisfied that the frequency meets the criterion for maritime safety at reasonable cost as that term is defined in section 5(2) of the Maritime Transport Act 1994.

25.8 Nautical Publications

A nautical publication carried to meet the requirements of this Part must –

- (a) be appropriate to the vessel's area of operations; and
- (b) incorporate all amendments made by the relevant government institution.
